## Durisol UK July Newsletter

Welcome to our July newsletter giving you the latest build news, training events and updates from Durisol UK.

## Durisol UK welcomes new Chairman and major shareholder

We're delighted to reveal that Hans Rerup (pictured left), President of Durisol International Corporation, has joined Durisol UK as a major shareholder and company Chairman.

Hans has vast experience of Durisol ICF having owned Durisol Canada for over 40 years before selling to Armtex in 2008. During his time at Durisol Canada, he was instrumental in successfully developing the Durisol product for use in noise barriers and retaining walls. Over hundreds of miles of Durisol noise barriers have been installed across North America and around the world.

We're also pleased to announce that Derek Atkins (pictured right), previously Durisol UK's Sales and Technical Director, is now Durisol UK's Managing Director. Derek has been involved with Durisol since 2005 when he introduced it to the UK market.

Derek said: *"These are exciting times for Durisol UK. Demand for our product is increasing every month as more and more people become aware of the many benefits of building with Durisol."*

*We're excited to welcome Hans to our management team and look forward to using his extensive product knowledge and experience to expand the take-up of Durisol in the UK even further."*
